### DETAILED ACTION

1. Applicant's arguments filed 3/12/02 have been fully considered but they are not persuasive.

#### ***Claim Rejections - 35 USC § 102***

2. Claims 1, 2 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kent. The Applicant is referred to the first Office action paper no. 2.

3. The Applicant has argued that Kent's embodiment in Fig. 6 "neither discloses nor suggests a combination craps/roulette game nor displaying craps bets on the game surface. The bets displayed on the game surface of Kent are roulette bets..... Kent makes no mention of craps at all".

4. The Examiner takes the position that the indicia on the sides of Kent's gaming table 21, Fig. 6, entitled "WIN CORRECT ODDS 5:1" and "PLACE CORRECT ODDS 2:1" each having the numbers 1-6, display bets for **roulette**. The indicia in the middle of Kent's gaming table entitled "FORECAST - CORRECT ORDER CORRECT ODDS 29:1" having combination of dice rolls "1 & 2" - "6 & 5" display bets similar to **craps**, wherein craps tables traditionally have betting areas having combination of dice rolls.

#### ***Claim Rejections - 35 USC § 103***

5. Claims 3, 5, 8, 13 and 14 rejected under 35 U.S.C. 103(a) as being unpatentable over Kent as applied to claim 1 above, and further in view of Carlson. The Applicant is referred to the first Office action.

6. The Applicant has argued against the Carlson reference individually by stating that Carlson "merely shows a craps game in which the dice are replaced by a wheel

Art Unit: 3711

having the combination of a pair of dice. Carlson does not disclose or suggest a combination craps/roulette game or a game surface having indicia displayed thereon for both craps and roulette". The Examiner cited Carlson because it teaches that it is known to include all the possible combinations of faces of a pair of dice on the slots of a roulette wheel. In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

7. Claims 4, 12 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kent in view of Carlson as applied to claim 1 above, and further in view of Hinterstocker. The Applicant is referred to the first Office action.

8. The Applicant has argued against the Hinterstocker reference individually by stating that Hinterstocker "discloses an electronic roulette game. Hinterstocker neither discloses nor suggest a combination roulette and craps game. The Examiner cited Hinterstocker because it teaches that it is known in the roulette gaming art to make the game of roulette electronic. See court decisions above.

9. Claims 24 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kent in view of Hinterstocker. The Applicant is referred to Kent in the first Office action. Hinterstocker teaches that it is known in the roulette gaming art to make the game of roulette electronic by providing electronic representation of a game surface having indicia thereon for displaying bets 24, and providing electronic representation of a

Art Unit: 3711

roulette wheel 22. In view of such teaching, it would have been obvious to make Kent's roulette/craps game electronic in order for the game to be attractive to video game players.

***Allowable Subject Matter***

10. Claims 6, 7, 9, 10, 18 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
